

**Join us as we mark  
National Disabilities Awareness Month with speaker  
Avnet Kleiner, director of development for  
Aleh Negev-Nahalat Eran in Israel**

**Sunday, March 5 at 10:30 a.m.**

We'll hear about a remarkable and pioneering village in Israel, **Aleh Negev-Nahalat Eran**, that provides severely disabled children and adults with a comprehensive framework for life.

**The multifaceted facility provides young adults with multiple disabilities the opportunity to live a rich and productive life within a safe environment.**

Avnet Kleiner, the village's director of development, will shed light on new initiatives to broaden inclusion and accessibility in society using examples implemented in Israel.

**There is no charge to attend.**

*Avnet works closely with IDF Major General (res) Doron Almog to spread Almog's message of opportunity the village presents for creating a better society for the disabled and the wider community.*

Avnet is also the founder of two non-profits: ALFA, to advance the rights of Holocaust survivors and WhatIsrael, which promotes constructive conversations about Israel on university campuses around the world. He is a member of the JNF Speaker's Bureau.

**This program is sponsored by the Tikkkun Olam committee of TI-JCC.**
