Jerry has now spent 4+ years researching his parent's experiences to fill in the details and to tell their story. After traveling to the pivotal locations of their story Jerry started a quest of researching and documenting the history of his parents' experiences and hardships growing up in Poland in the 1930's. Starting with a 2 hour audio interview he conducted, he has assembled a 50 minute presentation that is comprised of historical records, actual Nazi documentation and audio clips from the 1980 interview.
